

Eldora Larson - Painting/Drawing

Artist's Statement/Biography: My artwork is my means of expressing what I know and what I feel. I find the world to be an exciting place and I want others to see what I see; the essence of a simple object, the depth of color and dimensions of a landscape, the whimsy of everyday items standing side by side. This desire to share is my driving force. Moving a viewer to an emotional response with my artwork is a powerful experience and leaves me wanting to work harder and create even more.

Description of Art Produced: I produce original art using watercolor and acrylic paints as well as pencil, pen, and ink drawings.
