

Jody Reinardy, Kim Reinardy and Joe Fliegel - Metal Work

Artist's Statement/Biography: Jody and Kim Reinardy are husband and wife and Joe Fliegel, the third partner, is Kim's brother. Their children Elizabeth and Matthew Reinardy help also by coming up with their own cute designs. Our venture started out a few years back with the love of gardening, as we had many large gardens. It was at about that point that we yearned for one of a kind original sculptures throughout our gardens. So we began by making a few items for our own yard, and from there we shall say that things blossomed and we started making sculptures for friends & neighbors ultimately leading for us to do a handful of art shows. Our passion is truly the one of a kind metal sculptures.

Description of Art Produced: Original steel sculptures that are hand cut using a plasma cutter, shaped, and welded. All maintenance free and can be placed outside all year round. Flowers, birdhouses, welcome gates, ect.
